# **Makrolon® ET3117**

Polycarbonate

## **Covestro - Polycarbonates**

#### **Technical Data**

Product Description	n; Extrusion; high viscosity; UV stat	pilizad: agey rologeo: multi wall	choots / profiles: corrugated shoot
General	n, Extrusion, high viscosity, OV stat	mizeu, easy release, muiti wali	sneets / pronies, corrugated sneet
Material Status	Commercial: Active

- <sup>1</sup> These links provide you with access to supplier literature. We work hard to keep them up to date; however you may find the most current literature from the supplier.
- <sup>2</sup> A UL Yellow Card contains UL-verified flammability and electrical characteristics. UL Prospector continually works to link Yellow Cards to individual plastic materials in Prospector, however this list may not include all of the appropriate links. It is important that you verify the association between these Yellow Cards and the plastic material found in Prospector. For a complete listing of Yellow Cards, visit the UL Yellow Card Search.
